- The feature to exchange a registration fee or other item is now available. From an invoice, you can now select the Exchange items in the action menu. The system will ask you to select the proper item to exchange. And then the system will guide you to create a new invoice and the proper adjustment on the new invoice. A guide will be sent separately.

**Information / New release other updates**

- Branch report now have the export excel feature
- We have removed the actual notification when there is a decline payment. This notification was confusing as sometimes the parent retry the transaction and the payment goes through. A page to view the decline payment for the registrar will be added later.
- We have changed the way the cards on a member profile are calculated to take into account more business logic rules. The card should be more precise now including the refunds and the future schedule installments
